Whether you want a simple, elegant pattern or something more complex and ornate, the team will work with you to bring your vision to life.

The process starts with a consultation to discuss your design preferences. From there, the artisan will begin the process of crafting your custom stand. This includes shaping the stand out of a block of material, such as wood or bone, and then applying the custom patterns to the surface. The patterns can be applied in a variety of ways, such as by etching, embossing, or inlaying.
